

Amendments to the Claims

1. A complete listing of the claims is separately attached titled "CLAIM AMENDMENTS" and numbered 1 through 33 (6 numbered pages). Claims 1 and 33 are independent claims, the latter being a new independent claim similar to claim 1, both claims using the phrase "made entirely."

2. New dependent claim 31 refers to claim 1, further comprising the employment of an apparel lining material. Support for the inclusion of the "lining material" of claim 31 is provided in the specification:

"Optionally, the apparel seen in Figs. 1C, 2C 3, 4 and 5, may have a lining material 48 to add to the comfort, or for modesty reasons to reduce the transparency, of the apparel." Page 10, lines 9-10

3. The outstanding action stated that the words "full-speed, full-motion" introduced new matter into original independent claims 29 and 30. Independent claims 29 and 30 have been cancelled.

4. A summary of the status identifiers of the claims is as follows:

- a. Claims shown as "original": claims 3-25, 27 and 28
- b. Claims shown as "currently amended": claim 1, 2, 21 and 26
- c. Claims shown as "cancelled": dependent claim 5 and independent claims 29 and 30
- d. Claims shown as "new": claim 31 and 32 (dependent) and claim 33 (independent)

5. As per instructions of the PTO "Revised Amendment Format," claims shown as "new" are presented in clean versions without markings.

6. The total number of submitted claims remains the same with new claims 31, 32 and 33 replacing cancelled claims 5, 29 and 30.
